EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dale DiMaggio on 10-05-2005.

The application has been amended as follows:

In the specification:

Page 1, line 4 (per applicant's line numbering), before "." Insert --, now U.S. Patent No. 6,662,416--.

In the claims:

Claim 1, line 1, change "A" to --An underwater-- and after "module" insert --for memorializing a deceased and--;

Claim 1, line 4, after "portion" insert --providing a flange overhanging the base portion-- and delete "and";

Claim 1, line 5, change "." to --; and wherein cremation urns are located within the base portion.--;

Cancel claim 2;

Claim 3, line 2, after "more" insert --additional--;

Claim 5, line 2, after "bars" insert --.--;

Cancel claim 6;

Art Unit: 3677

Claim 9, line 1, change “further comprising” to --wherein the--;

Claim 9, line 2, after “urns” insert --are--;

Cancel claims 14-15;

Claim 16, line 1, change “habitat” to --module-- and change “15” to --8--; and

Cancel claims 17-25.

2. The following is an examiner’s statement of reasons for allowance: Regarding claim 1, Volpe et al. (US#6261028) represents the closest prior art of record. Volpe discloses an underwater module for memorializing a deceased comprising: a base portion 24,30; a “generally” tabular middle portion 12 providing a flange overhanging the base portion as shown in Fig. 3; an upper portion 11 having an interior void 13; and cremation urns (Fig. 6) located within the middle/upper portion.

3. Although Volpe fails to disclose the upper portion being upwardly sloping, the shape of the upper portion is not a critical feature of the invention as admitted by the applicant on page 16, lines 5-7, of the instant application. Therefore, it would have been an obvious design choice to modify Volpe such that the upper portion was shaped in an upwardly sloping fashion.

4. Volpe also fails to disclose the cremation urns are located in the base portion as claimed by the applicant. Moreover, as stated above, Volpe locates the cremation urns in the middle/upper portion. It would not have been obvious to one of ordinary skill in the art to modify Volpe such that the cremation urns were located in the base portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
